## **1. INTRODUCTION**

This document contains urban profile of cities/towns in Ethiopia that shows an overview of multi-sectorial images of activities. It is prepared by FDRE Ministry of Urban and Infrastructure. Ministry of urban and infrastructure is a federal organization which has its own duties based on proclamation number 1263/2021 “undertaking studies relating to urbanization, in coordination with other relevant bodies establish system for integrated urban development & preparation of national spatial plan; follow up implementation of same” is among the duties specified for the ministry office.

Urban profile is a single document that captures all information’s from both primary and secondary data sources such as cities urban Planning Institutes, Ethiopia statistical service (ESS) based on the checklist that has been prepared. Urban profile offers a detailed snapshot of existing situation of cities/towns able to provide a set of information for citizens, internal and external customers, researchers, academicians etc. The preparation of urban profile is the beginning job to establish urban observatory in Ethiopia. It also encourages to generate, collect, organize and disseminating quality urban data useful for recognizing cities/town worldwide.

This profile is proposed to show the detail profile of Robe City brings new concept of merging city which is a seat of Bale Zone as well as Sinana District as a Major City separated from the regiopolis as an administrative territory.

## 1. ORIGIN AND FOUNDATION OF ROBE CITY

Robe town is found in Bale Zone of Oromia National Regional State at 430 Km Southeast from Regional and National Capital Finfinnee. Historically, Robe Town was found and established in the year 1923 acting as a Deputy of district administrator next to Goba Town acting as main district center to Sinana and for the first time Robe Municipality was established in the year 1955.

Currently, Robe City is established under the provision of proclamation No. 250/2015 E.C. following new concept of merging city enacted by the council of Oromia National Regional government composing one large town and one medium town (Robe and Goba). Robe city is selected as a third order regional city through incorporation of Robe Large town, Goba medium town and surrounding two rural localities.

## 2. PHYSICAL CHARACTRSTICS OF ROBE CITY

### 3.1 Administrative Structure

- Name of the City/Town: Major City Administration
- Region: Oromia Region
- Zone: Bale zone
- Woreda: Robe-wereda
- Kebeles (administrative units): fourteen (14)
- Administrative function: City
- No of sub cities; three
- Area of City: 24450.3 hectare

### 3.2 Location

- latitude:
- Altitude:
- Distance from Regional Center (km) finfine: 430km
- Location map of the town

### **3.3 Topography**

- The altitude of the town (above sea level):
- Dominant topography (Slope) of the City:
- dominant soil type: reddish soil
- Shape of the city:

### **3.4 Climate**

- The mean annual temperature of the town:
- The average annual rainfall (in mm):
- The prevailing /dominant/ wind direction:

### **3.5 Principal Constraints for the physical expansion of the city**

- Natural:
- Man Made:

## 4 DEMOGRAPHY

### 4.1 Population size of Robe town

Table 4.1 Population size of Robe town

Sex	Population size	Percent
Male	17,526	53.03
Female	15,522	46.97
Total	33,048	

[Ethiopian Statistical Service, 2023]

## 5 BASIC SOCIAL SERVICES

### 5.1 Education Services

Table 5.1: Ownership of schools in 2022

No	Educational Level	Number of Schools				Remarks
		Government	Private	NGO (Others)	Total	
1	Special Boarding school	1	-	-	1	
2	Kindergarten	2	22	-	24	
3	Primary (1-4)	2	8	-	10	
4	Junior Secondary School (1-8)	17	19		36	
5	Senior Secondary	10	0		10	
6	TVET	1	-	-	1	
7	College	2	2	-	4	
8	University	2	2	-	4	
	<b>Total</b>	<b>37</b>	<b>53</b>	<b>-</b>	<b>90</b>
